

# Price a Medication using express-scripts.com

Whether you pick up your prescriptions at a pharmacy or have them delivered, you can compare prices for all your brand name, generic, formulary<sup>1</sup> and non-formulary medicines online at [express-scripts.com](https://express-scripts.com). You can quickly and easily price a medication before filling a prescription. Having this information will help you find the best value.

## Pricing a medication is easy!

Log in at [express-scripts.com](https://express-scripts.com) using your user name and password. First-time visitors need to take a moment to register – have your member ID number or social security number (SSN) handy.

Once logged in, select **Price a Medication** from the menu under **Prescriptions**.

On the next screens you will be asked to enter the name of the drug you want to price, the strength, and the dosage. (For example: Accupril®, 5 mg, taken once per day.)

Based on this information, the system will generate pricing information for home delivery and retail, and the brand-name and generic drug, if available. It also indicates whether this drug is covered in your plan. You can use this to compare the costs and then “Add” a drug to the list to track your out-of-pocket expenses, depending on your plan.

*You can also view drug information and select other retail pharmacies.*

**PATIENT**  
Chris

**IMPORTANT MESSAGE**  
After 3 fill(s) at a participating retail pharmacy, you will pay a higher cost for this and certain other drugs you take on a long-term basis. You have 3 fill(s) until your retail copayment increases.
